

Nexora Technologies Ltd. — Annual Report 2025

Fictional demonstration document for RAG and structured-data retrieval

1. Company Overview

Nexora Technologies Ltd. is a fictional technology company created for demonstrating an enterprise document-intelligence and RAG pipeline. Its business is presented as a provider of cloud software, data platforms, and AI-enabled business applications.

2. 2025 Financial Highlights

For the 2025 reporting year, revenue was \$170 million and profit was \$41 million. The company reported 1,900 employees and approximately 59 thousand customers. Research and development spending was \$24 million.

3. Revenue and Profit Trend

Revenue increased from \$100 million in 2023 to \$135 million in 2024 and \$170 million in 2025. Profit increased from \$20 million in 2023 to \$28 million in 2024 and \$41 million in 2025. These values are intentionally aligned with the structured CSV used by the RAG system.

4. Workforce

Employee count increased from 1,200 in 2023 to 1,500 in 2024 and 1,900 in 2025. The growth reflects the fictional company's expansion in engineering, sales, customer success, and operations.

5. Research and Development

R&D; expenditure was \$18 million in 2023, \$21 million in 2024, and \$24 million in 2025. The company states that investment was directed toward cloud infrastructure, machine learning, security, and product development.

6. Table Metadata

Table name: Financial Performance. Source: Annual_Report.pdf. Page: 3. Document type: PDF. Data type: financial. This metadata is intended to support source-aware retrieval and citation generation.

Table 1 — Financial Performance

Year	Revenue (\$M)	Profit (\$M)	Employees	Customers (K)	R&D (\$M)
2021	72	11	820	38	14
2022	91	15	980	43	16
2023	100	20	1,200	47	18
2024	135	28	1,500	52	21
2025	170	41	1,900	59	24

Document status: Demonstration dataset. Figures are fictional and are provided for RAG, table extraction, structured-data querying, and citation testing.
